Subject: Comments on the revised PTO Application, Wilson County Landfill, 98-09

Hi
Andy:
N 25201

DI

On October 23, 2015 the Solid Waste Section (SWS) received the responses to the comments (DIN 24807 & 24815), which are incorporated into the revised permit amendment application, prepared by Bartlett Engineering and Surveying, PC., and scanned and uploaded to the document tracking system with a DIN 25198.

The SWS completed a review of the engineering portions of the revised permit amendment application and has one request/comment which is due to recently personnel changes.

- (Section 1.4.3, Key Personnel, on Page 5) Ben Barn retired in early September 2015. John College is the Environmental Senior Specialist for your facility, and he can be reached at 910-796-7397 or 919-268-1524 (cell). Please update this subsection.

Christine Ritter will conduct the review of the environmental media monitoring plans of the revised permit amendment application, and she may issue a separate comment letter as needed.

According to the Responses No. 9 (DIN 25198), Wilson County will submit the well completion logs for each of the three gas probes (GP-1, GP-2, & GP-3) and soil boring/test pit log at the compositing area (08/04/2015 Comment No.9 [DIN 24815]) in December 2015. The SWS will make the final permit decision on permit issuance after receiving the above-mentioned logs/reports.

Please submit a hard copy of the revised page (s) of the application (including the above-mentioned logs/reports) and one electronic copy (in pdf format) of the completed application. Thank you for your cooperation on this matter.

Best regards,

Ming Chao

Dear Mr. Chao,

We mailed the revised sections and CD with the complete revised permit amendment pdf's yesterday addressing the comments received earlier. Thanks for the help and let me know if you need any additional information or clarifications.

Thanks! jon
